Health Information Privacy
Policies & Procedures

These Health Information Privacy Policies & Procedures implement our obligation to protect the privacy of individually identifiable health information that we create, receive, or maintain as a healthcare provider.

We implement these Health Privacy Policies & Procedures as a matter of sound business practices; to protect the interest of our patients; and to fulfill our legal obligations under the Health Insurance Portability and Accountability Act of 1996 (“HIPPA”), it’s implementing regulations at 45 CFR Parts 160 and 164 (65 Fed. Reg. 82462 (December 28, 2000) (“Privacy”), as amended by modifications proposed by the U.S. Department of Health and Human Services (HHS) in March of 2002, and the state law that provides greater protection or rights than the Privacy Rules.

These Policies & Procedures address the basics of HIPPA and the Privacy Rules that apply in our dental practice. They do not attempt to cover everything in the Privacy Rules. The Policies and Procedures sometimes refer to forms used to help implement the policies and to the policies and to the Privacy Rules themselves when added detail may not be needed.

Please note that while the Privacy Rules speak in terms of “individual” rights and actions, these Policies and Procedures use the word “patient” instead; “patient” should be read broadly to include prospective patients, patients of record, former patients, their authorized representatives, and other “individuals” contemplated in the Privacy Rules.

If you have any questions or doubt about any use or disclosure of individually identifiable health information or about any other obligations under these Health Information Privacy Policies and Procedures, the Privacy Rules or federal or state law, consult Christi English at (904) 396-4746 or Christi@beaverdental.com before you act.
